

Checklist for choosing Corporate branded Aprons

A practical tool for checking format, protection and useful features before ordering.

Identify the intended use

Setting	Main requirement	What to check
Bars, cafés, waiting staff	Freedom of movement	Short format and pockets, if needed
Kitchens, bakeries, delis	Torso and leg coverage	Bib, length and ease of cleaning
Crafts and workshops	Durability and access to tools	Pockets, reinforcements and seams
Events, tastings, courses	Practicality for occasional use	Fabric weight and adjustments
Areas exposed to water or splashes	Better protection against liquids	Explicitly stated waterproof rating

Compare the coverage

Format	Indicative dimensions	When to choose it
Short	54 × 30 to 90 × 40 cm	When the torso must remain free
Mid-length	50 × 73 or 63 × 83 cm	For intermediate coverage
Long	65 × 90 / 70 × 90 / 75 × 90 cm	When the torso also needs protection
Extra-long	up to 80 × 100 cm	For more extensive leg coverage
Children	43 × 43 or 48 × 64 cm	For smaller body sizes

Measurements are indicative: compare them with the actual dimensions on the product page.

Three questions before choosing

- ☐ Do I need to protect only the waist, or the torso and legs as well?
- ☐ Are pockets needed? If so, where?
- ☐ Does the work involve splashes, frequent washing or long hours of wear?

Check the fabric

Material	Relevant feature	Check before ordering
Cotton	Breathability and comfort	Fabric weight, washability and weave

Material	Relevant feature	Check before ordering
Organic / recycled cotton	More environmentally conscious cotton variants	Actual material composition
Polyester / RPET	Quick drying and crease resistance	Available branding methods
Polycotton	Balance of comfort and easy care	Fibre percentages and washing
Non-woven fabric	Lightweight option for short-term use	Suitability for intended duration

Match the artwork to the technique

Logo characteristics	Method to consider	Watch out for
Simple design, few solid colours	Screen printing	Product compatibility; quantities
Clear print in solid colours	Transfer printing	Maximum eight solid colours; do not iron over print
Fine details, several colours or gradients	Digital transfer	Smooth, flat print surfaces
Traditional, textured finish	Embroidery; full-colour or 3D if available	Areas and methods allowed for the model

Before approving the customisation

- ☐ I have compared the apron colour with the artwork.
- ☐ I have checked the print position under “Printing information”.
- ☐ I have checked maximum dimensions, fabric and compatible method.
- ☐ I have considered the care instructions and whether to order a sample.

Selected product details

Item	Information to complete
Intended use / department	_____
Product name or code	_____
Format and dimensions	_____
Material and fabric weight	_____
Colours and quantity per colour	_____
Pockets and adjustments	_____

Item	Information to complete
Branding position	_____
Print or embroidery technique	_____
Maximum print dimensions	_____
Sample	☐ To order ☐ To consider ☐ Not required

Final checks

- ☐ Dimensions and coverage suit the wearer's activity.
- ☐ The product page confirms the requested customisation.
- ☐ The chosen colour variant and quantity are available.
- ☐ Care requirements are compatible with the intended use.
- ☐ I have considered a sample to check colour and fit.
