

Personalised Drawing sets: practical checklist and comparison guide

A working comparison for purchases intended for schools, workshops, summer camps and events

Use this checklist to shortlist models and collect the information you need before confirming an order. Check the details on each product page.

1. Start with the intended use

Situation	Options to compare	Main check
Trade fair or event distribution	Compact kits with pencils and sheets	Easy distribution; included pad
Individual school activity	Sets with colours and pictures to finish	Contents and age information
Summer camps and mobile activities	Bagged sets or pencil cases	Portability, fastening, accessories
Workshop using several techniques	Art cases with assorted tools	Range of tools and size
Prize for a competition	Sturdy boxes or art cases	Material, capacity and weight

2. Match the artwork to the material

Artwork objective	Technique to consider	Check before ordering
Simple logo, few solid colours	Pad or screen printing	Material and available print area
Detailed image or gradients	Digital transfer	Availability on the chosen model
Colourless mark on natural material	Engraving	Compatibility with material

3. Three questions to ask first

- ☐ Does the set contain everything needed for the planned activity, or will extra paper and accessories be required?
- ☐ Is the available print area visible enough for the logo?
- ☐ Have the recommended age, warnings and any small parts been checked?

To make a useful comparison, look beyond the price. Record the contents, packaging material and actual customisable area.

4. Comparison sheet to complete

Information to collect	Option A	Option B
Model name / code	_____	_____
Activity and recipients	_____	_____
Recommended age and warnings	_____	_____
Tools and paper included	_____	_____
Packaging type and material	_____	_____
Space available for logo	_____	_____
Customisation technique	_____	_____
Order quantity	_____	_____
Sample availability	_____	_____

5. Check before purchasing

- ☐ The contents are sufficient for the planned activity.
- ☐ Recommended age and product warnings have been checked.
- ☐ Print position, dimensions and technique have been checked.
- ☐ The artwork is suitable for the intended printing result.
- ☐ A sample has been considered, where useful and available.
- ☐ Order quantity and packaging size are suitable for distribution.

Where to check the details

Open the [Personalised Drawing sets](#) and check each product page, especially the customisation information and any sample options.
