Practical guide to Custom Waterproof bags

Comparison chart and checklist for choosing a model to customise

Use these tables to compare formats and features and note what to check before ordering.

1. Compare the models

Model	Capacity	Main use	Detail to check
Dry bags	1.5–10 L	Small items, accessories, light clothing	Closure and attachment options
Bags	1.5–25 L	Everyday use, gifts and travel	Handles and shoulder strap
Holdalls	Up to 35 L	Changes of clothes and bulky equipment	Shoulder strap or backpack carrying
Backpacks	20–30 L	Travel and outdoor activities	Straps and internal organisation

2. Start with what you need to carry

Indicative capacity	Example contents
1.5–2.5 L	Phone, keys, documents and small personal items
3.5–5 L	Essentials for a day at the beach
Up to 10 L	Towels and light clothing
20–35 L	Bulky equipment and complete changes of clothes

Capacities and features vary by model: always check the relevant product page.

3. Prepare a brief before choosing

Recipients and occasion: _____

Items to carry: _____

Preferred model and capacity: _____

Approximate quantity: _____

4. Materials: what to consider

Material	What to consider
Polyester	Lightweight and durable; ripstop limits the spread of tears
RPET	Material produced from recycled PET plastic
PVC	Flexible; also used for coatings and transparent inserts
PP (polypropylene)	Durable and versatile material

5. Closures and details: quick questions

[ ] Would a roll-top closure with buckle help limit water ingress?

[ ] Is a handle, shoulder strap or backpack with straps more convenient?

[ ] Are carabiners, pockets, padded compartments or reflective details needed?

[ ] Is a zip important for frequent access to the contents?

6. Choose the customisation

Technique	When to consider it
Screen printing	Simple logos with few colours; cost-effective for large quantities
Transfer printing	Application using heat and pressure
Digital transfer	Detailed images, gradients and many colours
DTF on fabric	Multicolour artwork with good definition

7. Checklist before confirming your order

[ ] I have compared capacity, materials, carrying options and closures.

[ ] I have checked the logo positions under “Printing info”.

[ ] I have checked that the material, artwork and printing method are compatible.

[ ] For large distributions, I have considered quantities and packaging volume.

[ ] If available, I will consider “BUY SAMPLE” before the full order.

8. Complete a rainy-day kit
